We believe this policy relates to the following legislation:

- Health and Safety at Work, etc Act 1974
- Workplace (Health, Safety and Welfare) Regulations 1992
- Children and Families Act 2014
- Management of Health and Safety at Work Regulations 1999

We understand that asthma, which particularly affects children, causes the airways in the lungs to narrow making it difficult to breathe. Sudden narrowing produces what is usually called an attack of asthma.

We have a duty to ensure that we are prepared to assist in the management and control of this widespread, serious but controllable condition among children.

We will endeavour to create a school environment that is favourable to all asthma sufferers. We will encourage those children who suffer with asthma to fully participate in all aspects of this school.

We will ensure that all school personnel are fully trained in dealing with a person having an asthma attack and that asthma inhalers are readily accessible at all times.

We wish to work closely with the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.

We as a school community have a commitment to promote equality. Therefore, an equality impact assessment has been undertaken and we believe this policy is in line with the Equality Act 2010.

We believe it is essential that this policy clearly identifies and outlines the roles and responsibilities of all those involved in the procedures and arrangements that is connected with this policy.
